Section One: Ohio Standards for School Treasurers

The Ohio Standards for School Treasurers and School Business Managers are not just guidelines but are backed by the amended Substitute House Bill 1 of the 128th Ohio General Assembly (ORC 3319.612). This bill directed the Ohio Educator Standard Board to create a Subcommittee for School Treasurers and School Business Managers, which in turn assisted the Educator Standards Board in developing these standards.

The development of the *Ohio Standards for School Treasurers* was a collaborative effort in 2010 that included the Ohio Educator Standards Board (ESB), the ESB Standards Committee, the ESB Subcommittee for School Treasurers and Business Managers, and the Ohio Association of School Business Officials (OASBO). This cross-section of Ohio school professionals worked together intending to define the role and responsibilities of the school treasurer while asserting the level of quality to be accepted as the norm in the performance of the school treasurer’s duties. This was done with the understanding of the importance of the fiscal office in the realm of education. The standards were revised in 2023 by the Ohio Educator Standards Board (ESB), the ESB Standards Committee, the ESB Subcommittee for School Treasurers and Business Managers, and the Ohio Association of School Business Officials (OASBO) to better align with the Association of School Business Officials International professional standards and to reflect current business and financial practices.

These *Ohio Standards for School Treasurers* will serve as:

- An overview of the expectations of leadership, management, communication, collaboration, and professionalism for Ohio’s school treasurers;
- An instrument for the effective professional development of school treasurers; and
- Criteria for measurement of standard compliance.

The financial stability of a school district is crucial in the education of Ohio’s students. The Ohio Revised Code (ORC) section 3313.31 states that the treasurer shall be the chief fiscal officer of the school district, shall be responsible for the financial affairs of the district, and shall report to and is subject to the direction of the district board of education. The ORC is prescriptive in the legal duties of the chief fiscal officer of a school district, but operationally, treasurers serve various roles. Treasurers’ roles and responsibilities are often based on the size of the district and the number of corresponding administrators who may assume some of the duties outlined in this document.

An effective treasurer is an essential team member in striving for excellence in education. Please note that the treasurer operates in different capacities from district to district, and although these standards are the mainstay of the treasurer's roles and responsibilities, the treasurer has a subset of unique roles in each school district. It would be unrealistic to assume that throughout Ohio, each treasurer serves with identical functionality.

Roles and Responsibilities of the School Treasurer

An effective treasurer supports the components of the teaching and learning programs within the school district. The role of an effective treasurer encompasses a multitude of responsibilities, each essential to the fiscal health of the district. Treasurers are:

- Fiscal leaders and advisors who provide sound financial guidance that assists the district leadership team in the decision-making process;
- Financial managers who clearly understand the economic resources and collaborate with district leadership in their management;
- Managers of tangible and intangible assets who, through their fiscal leadership, are charged with the oversight of these assets;
- Communicators and collaborators who disseminate and articulate the financial status of the district and
- Professionals who adhere to established ethical standards and commit to continuous professional learning.

Introduction to the Standards

Ohio Standards for School Treasurers delineate the knowledge and skills of effective school treasurers. These standards are not minimal expectations, but a framework upon which treasurers are to construct additional knowledge and practical skills for their district. Treasurers who work within the framework of these standards should expect to see higher performance for themselves and their districts. These standards convey the expectations, practices, and roles that the State Board of Education expects school treasurers to contribute to an effective and collaborative environment that cultivates high achievement for all students.

Who is the Audience for this Document?

The purpose of articulating clear, statewide standards is to assist school treasurers in guiding their own professional learning. Along with this document, other companion guides and technical manuals have been developed and released to assist Local Professional

Development Committees (LPDCs), districts and professional organizations with creating and implementing professional development plans and programs for treasurers. Additionally, this document is intended to assist individual treasurers in self-assessing their performance, collaboratively discussing self-assessment results with peers, and using the standards contained herein to develop Individual Professional Development Plans (IPDP).

Organization and Structure of the Standards

Each standard is organized as follows:

- **Standard:** The Standard expresses a definable goal or area of responsibility of school treasurers.
- **Narrative Summary:** The narrative summary fully describes the content and rationale for each standard.
- **Elements:** The Elements are the statements of the skills or characteristics that define effectiveness in the Standard.
- **Indicators:** The Indicators show the knowledge and skills of each Element in practice. The Indicators are observable or measurable statements that serve as tools in discussions of effective school treasurers.

The Standards in the Context of Ohio's Standards-Based Reforms

The *Ohio Standards for School Treasurers* was developed as a natural extension of the standards-based reforms that have taken place in Ohio. The state has detailed academic content standards for students in grades K to 12, as well as the *Ohio Standards for the Teaching Profession*, the *Ohio Standards for Principals*, the *Ohio Standards for Superintendents*, the *Ohio Standards for School Counselors*, and the *Ohio Standards for Professional Development*. Together, these standards show what is known about the practices of effective district leaders, school leaders, teachers, and professional development systems.

Common themes across all of these sets of standards. These shared objectives include an emphasis on:

- Promotion of student learning and achievement;
- Shared leadership;
- Data-based decision-making;
- Communication and collaboration; and
- Continuous professional learning.

Section Two: Ohio Standards for School Treasurers

Standard 1: Leadership

School Treasurers participate in a leadership role within the district.

Standard 2: Financial Management

School treasurers demonstrate a clear understanding of financial resources and manage those resources in collaboration with the board of education and district leadership.

Standard 3: Facilities, Property and Asset Management

School treasurers provide fiscal leadership in the management of tangible and intangible assets and support services.

Standard 4: Communication and Collaboration

School treasurers communicate and collaborate effectively with the board of education, district leadership and stakeholders.

Standard 5: Professionalism

School treasurers are committed to a high level of professionalism in their conduct, which includes collaboration, professional learning, and adherence to compliance and ethical standards.

Standard 1: Leadership

School treasurers participate in a leadership role within the district.

NARRATIVE SUMMARY:

Effective treasurers, in collaboration with the district superintendent and the board of education, develop, implement, and monitor policies and procedures based on sound fiscal practices and the analysis of financial resources that support the district's strategic plan for achieving its goals. Treasurers are integral members of the district leadership team and value the importance of an effective working relationship with the superintendent and the board of education.

Treasurers work with stakeholders to ascertain a reasonable long-term view of the fiscal stability of the school district and use financial data to make informed decisions; when called upon, treasurers must use these same skills to propose options to respond to a changing fiscal reality in the short term.

Treasurers provide oversight of personnel under their direct supervision and monitor the fiscal resources and financial data of the district. Treasurers regularly inform the district leadership team and board of education of the district's financial position and its sustainability and potential impact on instructional programs and personnel.

ELEMENTS:

Section Three: Ohio Standards for School Business Managers

The development of the *Ohio Standards for School Business Managers* was a collaborative effort that included the Ohio Educator Standards Board (ESB), the ESB Standards Committee, the ESB Subcommittee for School Treasurers and Business Managers, and the Ohio Association of School Business Officials (OASBO). This cross-section of Ohio school professionals worked together with the goal of defining the role and responsibilities of the school business managers while asserting the level of quality to be accepted as the norm in the performance of the school business managers' duties. This is being done with the understanding of the importance of business operations in the realm of education. The standards were revised in 2023 by the Ohio Educator Standards Board (ESB), the ESB Standards Committee, the ESB Subcommittee for School Treasurers and Business Managers, and the Ohio Association of School Business Officials (OASBO) to better align with the Association of School Business Officials International professional standards and to reflect current business and financial practices.

These *Ohio Standards for School Business Managers* will serve as:

- An overview of the requirements of leadership, management, communication, collaboration, and professionalism for Ohio's school business managers;
- An instrument for the effective professional learning of school business managers; and
- Criteria for measurement of standard compliance.

The effective functioning of a school district's facilities, business operations, and risk management are essential components in the education of Ohio's students. The Ohio Revised Code (ORC) section 3319.03 states that the board of education of each, city, exempted village, and local school district may create the position of business manager. The board shall appoint such business manager who shall serve pursuant to a contract in accordance with ORC section 3319.02. In the discharge of all official duties, the business manager may be directly responsible to the board, or to the superintendent of schools, as the board directs at the time of appointment to the position. Where such business manager is responsible to the superintendent, the business manager shall be appointed by the superintendent and confirmed by the board. No board of education shall appoint or confirm as business manager any person who does not hold a valid business manager's license issued under ORC section 3301.074. If the business manager fails to maintain a valid license, the business manager shall be removed by the board.

An effective business manager is an essential team member in striving for excellence in education. Please note that the business manager operates in different capacities from district to district. Although these standards are the mainstay of the business manager's

duties and responsibilities, the business manager has a subset of unique duties in each school district. It would be unrealistic to assume that throughout the state of Ohio, each business manager serves with identical functionality.

ORC is prescriptive in the legal duties of a school district's business manager, but operationally, they serve various roles. These roles and responsibilities are often based on the size of the district and the number of corresponding administrators who may assume some of the roles outlined in this document.

Roles and Responsibilities of the School Business Manager

An effective business manager supports the components of the teaching and learning programs within the school district. An effective business manager's role encompasses many responsibilities, each essential to the ongoing operation, maintenance, and risk management of the infrastructure and services of the district. Business managers are:

- Business leaders and advisors who provide sound business guidance that assists the district leadership team in the decision-making process;
- Facilities managers who focus on and understand the construction and maintenance of facilities;
- Business operations leaders who oversee assets, personnel, and support services;
- Safety- and security-focused, ensuring a safe and secure school environment;
- Communicators and collaborators who disseminate and articulate the business operations of the district and
- Professionals who commit themselves to adhering to established ethical standards and commit to continuous professional learning.

Introduction to the Standards

The *Ohio Standards for School Business Managers* delineate the knowledge and skills of effective school business managers. These standards are not minimal expectations, but a framework for business managers to construct additional knowledge and practical skills for their district. Business managers who work within the framework of these standards should expect to see higher performance for themselves and their districts. These standards convey the expectations, practices, and roles that the State Board of Education expects school business managers to contribute to an effective and collaborative environment that cultivates high achievement for all students.

The Standards in the Context of Ohio's Standards-Based Reforms:

The *Ohio Standards for School Business Managers* was developed as a natural extension of the standards-based reforms that have taken place in Ohio. The state has detailed academic content standards for students in grades K to 12, as well as the *Ohio Standards for the Teaching Profession*, the *Ohio Standards for Principals*, the *Ohio Standards for Superintendents*, the *Ohio Standards for School Counselors*, and the *Ohio Standards for Professional Development*. Together, these standards show what is known about the practices of effective district leaders, school leaders, teachers, and professional development systems.

Common themes across all these sets of standards. These shared objectives include an emphasis on:

- Promotion of student learning and achievement;

- 
- Shared leadership;
 - Data-based decision-making;
 - Communication and collaboration; and
 - Continuous professional learning.

Section 5: Understanding and Using the Standards

The *Ohio Standards for School Treasurers and School Business Managers* defines expectations for Ohio's school treasurers and business managers based on what is known about the skills and practices of effective treasurers and business managers. The standards do not change the licensure or performance evaluation process for Ohio's treasurers and business managers. While the standards are not written as an evaluation tool, they can and should be used as a guide for treasurers and business managers as they self-assess their professional effectiveness to identify their strengths and areas for additional professional growth.

Standards-Based Guiding Questions

One way for treasurers and business managers to self-assess is to respond to focused, guiding questions related to best practices. The tool that follows was created using the standards as its base. Any questions to which a treasurer or business manager responds at levels 1, 2, or 3 may be areas for growth and further professional development. It may be useful to answer the questions with a trusted peer, mentor, or colleague to allow for additional discussion and reflection. Remember that this is a confidential, self-administered tool and is not intended as an external evaluation tool.

Please note that school treasurers and business managers operate in different capacities from district to district, and although these standards are the mainstay of their roles and responsibilities, they have a subset of unique roles in each school district. It would be unrealistic to assume that throughout Ohio, each treasurer and business manager serves with identical functionality. While the Ohio Revised Code (ORC) is prescriptive in the legal duties of the chief fiscal officer of a school district, school treasurers and business managers serve various roles, which are often based on the size of the district and the number of corresponding administrators who may assume some of the duties outlined in this document.

Using the Ohio Standards for Treasurers and Business Managers for Professional Learning

The Ohio Standards for Professional Development suggest a general process for professional learning that can be used by treasurers and business managers in personal professional development planning based on the Ohio Standards for School Treasurers and Business Managers.

The Professional Development standards suggest a five-step process for professional development planning by individuals. The steps in the standards-based planning cycle are explained in further detail on the following pages and include:

Step 1: Examine Data

Treasurers and business managers should self-assess (using the rubric on the previous pages) and evaluate available data to determine the specific needs in their districts related to their work.

Step 2: Determine Learning Priorities

Treasurers and business managers should analyze the data collected in Step 1 to identify specific goals for professional learning.

Step 3: Align Initiatives

Treasurers and business managers should use the information gained from Steps 1 and 2 to identify specific actions and available activities that will allow for their professional learning and growth.

Step 4: Develop Implementation Strategies

Given the results of the work done in Steps 1 through 3, treasurers and business managers should develop specific implementation strategies and plans for evaluation.

Step 5: Monitor, Assess and Reflect

Treasurers and business managers should plan the ways in which they will evaluate the effectiveness of their personal professional development efforts.

These five steps describe a continuous cycle of professional learning. Educational administrators at all levels of responsibility realize that high quality professional development requires a career-long cycle of improvement.

STEP 1: EXAMINE DATA

Treasurers and business managers should conduct a self-assessment using the guidelines and rubrics on the previous pages. Questions such as the following can help focus this self-assessment:

- What are my strengths and weaknesses?
- To what extent do I meet the Ohio Standards for School Treasurers and Business Managers?
- What does my self-assessment suggest as areas for growth or updating in my performance?

Treasurers and business managers also should review and evaluate other available and pertinent data and reports that impact their work. Some data and reports should have been collected already by the district and leadership team. It may be helpful to review other data sources and reports as a leadership team activity. Some guiding questions to use to analyze the data include the following:

- What patterns emerge from the data?
- Do the reports on the work under my leadership suggest commendations, updating, or areas for improvement?
- How are the roles and responsibilities under my leadership connected to the district’s strategic plan and goals?

STEP 2: DETERMINE LEARNING PRIORITIES

Treasurers and business managers should analyze the data collected in Step 1 to identify specific priorities for their continued professional learning. To determine professional learning priorities and to focus professional development, establish two or three goals or learning outcomes. Again, the learning priorities and goals established in Step 2 should be based on the Ohio School Treasurers and Business Managers Standards and the district’s strategic plan and goals. It may be helpful to determine professional learning goals as a leadership team activity.

Some guiding questions to use when establishing learning priorities include the following:

- What additional knowledge and skills can I obtain that would help me address the Ohio School Treasurers and Business Managers Standards, elements or indicators that are of concerns or in need of updating?
- Given the data for the district’s strategic plan and goals analyzed in Step 1, what additional knowledge areas or skills/practices could I improve upon that would help me be a more effective leader in meeting the district’s strategic plan and goals?
- What has the state of Ohio and my professional organization identified as best practices for Ohio treasurers and business managers that may be applicable to my professional learning?

STEP 3: ALIGN INITIATIVES

In Step 3, treasurers and business managers should list their learning priority goals from Step 2. The district leadership team, colleagues and professional organizations may be available to assist with suggested actions and learning activities that would address the learning priority goals. While “knowledge” and “skills” related goals may be addressed best through workshops and higher education courses, professional development should not be limited to these two types of learning activities. Professional development can be aligned with a variety of learning initiatives that should be considered. The following is only a partial list of different types of activities that could address your learning priority goals:

|---|--|--|
| <ul style="list-style-type: none"> • A college course; • A workshop; • A specialized training program; • Peer mentoring/coaching; | <ul style="list-style-type: none"> • Informal peer observations; • Collaborative planning; • Action research; | <ul style="list-style-type: none"> • Off-site visitations; • A mentoring program; • Researching best practices. |
|---|--|--|

Align and list your learning priorities and goals with several possible learning initiatives and activities. Keep in mind the importance of including a variety of learning experiences (see Ohio PD Standard 4.2) and planning a logical sequence of learning experiences by order or date (see PD Standard 4.3):

STEP 4: DEVELOP IMPLEMENTATION STRATEGIES

Given the results of the work done in Steps 1 through 3, treasurers and business managers should develop specific implementation plans for their proposed learning initiatives/activities, the proposed dates and duration of each activity, and how they will evaluate the effectiveness of the proposed professional development.

The evaluation of your learning initiatives/activities should consider how you will evaluate the short- and long-term impact of the proposed professional development on your leadership and work.

STEP 4: MONITOR, ASSESS, AND REFLECT

Continuous monitoring, assessment and reflection of professional development and professional learning activities are essential to assure continuous improvement and growth. Identifying, collecting, and organizing evidence to support individual improvement and professional development efforts is the responsibility of each treasurer and business manager. Different types of evidence will illustrate the work that you are doing and the positive outcomes of your professional development upon your leadership and work; evidence may include artifacts, products, documents, and data. The Ohio Standards for Professional Development suggests that professional development be assessed, and evidence gathered on multiple levels:

- Participant satisfaction and learning (see Standard 5.1)
- Application of new knowledge and skills (see Standard 5.2)
- Organizational change (see Standards 5.3)
- Student achievement (see Standard 5.4)
