

Simulation reflects the expected FY 2024 and FY 2025 state foundation funding payments and continued phase-in of the school funding formula first enacted in FY 2022. Actual aid will be calculated based on actual data and is subject to change. The primary purpose of these estimates is to determine a state total obligation. The formula was designed and current law requires that increases in local property values or income and/or declining district enrollment results in increased formula calculation of local capacity. Increased calculation of local capacity likewise either limits the growth of state foundation funding or results in decreased state foundation funding in accordance with existing law. Districts with growing student populations are more likely to receive greater increases in state foundation funding than the simulation presents. Conversely, districts with declining student enrollment may actually receive less state foundation funding than simulated. **Districts should not make decisions based on simulated estimates as payments will change once formulas are implemented with actual data.**
