

Colleges and Universities that offer School Law and School Finance

For those individuals seeking an [Ohio School Treasurer license](#), *School Law* and *School Finance* are 2 required college-level courses that must be taken (in addition to other requirements).

OASBO has assembled a list of colleges and universities that offer these 2 courses. This is not an exhaustive list, but simply those we are aware of at this time. These listings do not act as an endorsement of any of the below institutions.

It is always important to check with ODE to make sure that the courses you take are accepted by ODE.
